Subject: Tunney Act

To Whom It May Concern:

Please, enough already with hassling Microsoft and Bill Gates! Bill Gates has done a lot of good for our country with his company Microsoft! Stop the nonsense and leave the good company and Bill Gates along already!

Just because a few of our government elected officials are against Microsoft and Bill Gates because of the brilliant man he is and because he has founded one of the best companies in the world gives our government NO right to continue to harass him!

I say to our government ENOUGH ALREADY! Spend our tax dollars on more important issues in this country, like coming up with a way STOP THE TERRORIST THAT THEY ALLOW INTO THE USA!

Sincerely,
Mary Chance
